7. SPECIFIC IDENTIFICATION OF CONFLICT OF INTEREST AND MEASURES FOR THEIR MANAGEMENT

The Company is constantly conducting an in-depth analysis of its business and organisational arrangements including best execution arrangements, inducement practices, remuneration practices and research/marketing communication procedures, to ensure that all likely conflict of interest situations are identified regardless of materiality. The Company has identified the following circumstances which give rise to a conflict of interest entailing a risk of damage to the interests of one or more Clients, as a result of providing investment services:

a) Remuneration of staff:

The Company, in accordance with its governing legislation, does not remunerate its employees based on any factors that create conflicts of interest or are not in favor of the best interest of its Clients. The Company's employees are remunerated (fixed and variable) based on Key Performance indicators within their departments, which are approved by the Compliance Function and Board of Directors. In order for the Company to manage the potential conflicts arising out of this practice, it has put in place the

below procedures and arrangements regarding the variable remuneration:

- i. The variable Remuneration is not provided until a specific period of time has passed; Under this measure, the Company aims to lessen the risk of a short term speculative mindset especially in sales staff; The variable Remuneration practice is structured to align the long term interests of the staff and the direct and continuous best interest of the Clients;
- ii. The Company awards variable Remuneration only when the relevant departments of the Company or/and the third party service providers have conducted their duties according to the regulatory requirements (act clear, fair and not misleading);
- iii. The Company monitors, via a variety of methods, the Departments and the third party providers that receive variable Remuneration (especially sales staff) in order to ensure whether they are acting on the best interest of their Clients; Company records all calls between the sales and Clients whereas Compliance performs sample checks of the recorded calls and makes a relevant report to the Board of Directors of the Company;
- iv. The Company proceeds in an on-going education of the key functions of the Company in order to update their knowledge and be consistent with the regulatory requirements (act clear, fair and not misleading).

b) Commissions received from its Liquidity Provider:

In some cases, where the Company sends orders for execution to its Liquidity Providers, the Company's Liquidity Provider may pay the Company a rebate commission for the order flow sent for execution. Should that be the case, in order for the Company to manage the potential conflicts arising out of this practice, the Company has put in place the below procedures and arrangements regarding the commissions that may be received from its Liquidity Provider:

- i. The Company shall always examine and record how the commissions, received from its Liquidity Provider, would enhance the quality of the services provided to Clients and the steps taken in order not to impair the Company's duty to act honestly, fairly and professionally in accordance with the best interests of its Clients;
- ii. The Company declares that this benefit, if received, would not induce it to favour the particular Liquidity Provider over other Liquidity Providers and it is confident that the Client would be better off under this arrangement, if in place, compared to the use/employment of other arrangements (including other Liquidity Providers).

c) Company's Structure/ Outsourced Service Providers/ Related parties:

- i. The Company has in place non-disclosure and confidentiality agreements with all related parties and outsourced service providers in relation to Client(s)' personal information;

- ii. The Company controls the information communicated between the Company, related parties and outsourced service providers to ensure no harm to the Client's interests;

If, during the course of a business relationship with a Client or group of Clients, the organisational or administrative arrangements/measures in place are not sufficient to avoid or manage a conflict of interest relating to that Client or group of Clients, the Company will disclose the conflict of interest before undertaking further business with the Client or group of Clients.

- be in a durable medium;
